BACKGROUND

IMPORTANT: Please register directly on the course website: http://unccelearn.org/

The background of the knowledge to lead course is the need to address the challenges of climate change and the importance of understanding the relationship between climate change and global warming. The course provides an opportunity for participants to gain a deeper understanding of the issues and actions required to address these challenges.

The course is organized by the United Nations Development Programme (UNDP) and is led by Kit Nicholson. The course content includes presentations by experts in the field and interactive discussions.

CONTENT AND STRUCTURE

The content of the course includes presentations on the key issues and actions required to address climate change. The course structure includes interactive discussions and opportunities for participants to share their experiences and ideas. The course is available in PDF format for download from the course website.
