BACKGROUND

In September 2015, all 193 Member States of the United Nations adopted a plan for achieving a better future for all — laying out a path over the next 15 years to end extreme poverty, fight inequality and injustice, and protect our planet. At the heart of “Agenda 2030” are the 17 Sustainable Development Goals (SDGs) which clearly define the world we want — applying to all nations and leaving no one behind.

The new Global Goals result from a process that has been more inclusive than ever, with Governments involving business, civil society and citizens from the outset. We are all in agreement on where the world needs to go. Fulfilling these ambitions will take an unprecedented effort by all sectors in society — and business has to play a very important role in the process.

CIFAL Ecuador provides a webinar to present the issue of creating public companies to boost economic development.

EVENT OBJECTIVES

The main objective of this webinar is to provide municipalities in Ecuador with a model to follow to create public companies.

CONTENT AND STRUCTURE

The webinar is comprised of presentations in relation to the creation of public companies, followed by a Q&A session.

TARGETED AUDIENCE

This webinar is addressed to authorities and technicians working in Planning and Management areas.
